Re: Letter of recommendation for Edward Sheldon, PhD

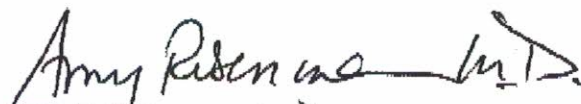

I am an obstetrician gynecologist in Santa Monica, California. I have referred patients to Dr. Edward Sheldon in the early 1980's for management of labor pain and anxiety, premature labor, delayed labor, hyperemesis, and sexual dysfunction.

Dr. Sheldon saw labor patients for me and patients with preoperative anxiety disorders in the hospital. They employed a mixture of hypnosis, self-hypnosis, and guided imagery with excellent results. Dr. Sheldon and I worked together for about 7 years from 1982 - 1989 when I gave up my obstetrics practice in favor of urogynecology.

We worked together during that time frame at Santa Monica UCLA Medical Center, where he permission to see these patients for these treatments.

I highly recommend Dr. Sheldon as an excellent addition to any medical staff. He has unique interests and skills, which mesh well with allopathic medicine and enhance the benefits to our patients.

Sincerely,

Amy E. Rosenman, M.D.
